About This Guide

The AC-W Quick Reference Guide (QRG) only contains the product's connection information.

Disclaimer

Read ALL the disclaimers and Safety Notes in this document before installing, operating, or maintaining this product.

Safety Notes

Before working with this product, read the following Safety Notes carefully. The notes include important safety information about installation, usage, and maintenance.

- Make sure the power cord is not crimped or damaged.
- Never disconnect this product from power cord by pulling or tugging on the cord.
- Make sure there are no flammable materials close to the unit while operating.

- Always make sure that the voltage of the outlet to which you are connecting this product is within the range stated on the decal or rear panel of the product.
- This product is for indoor use only! (IP20) To prevent risk of fire or shock, do not expose this product to rain or moisture.
- Never connect this product to a dimmer.
- The maximum ambient temperature is 104° F (40° C). Do not operate this product at higher temperatures.
- In the event of a serious operating problem, stop using the unit immediately.
- Never try to repair this product. Repairs performed by unauthorized technicians can lead to damage or malfunction. Please contact the nearest authorized technical assistance center.

What Is Included

- One Transmitter
- One Receiver
- One Quick Reference Guide

Product Description

The AC-W is a wireless trigger that works with CHAUVET’s Hurricane 700 (V2) and the B250 / B550 Bubble Machines without the need of an external power supply for easy setup and teardown. With an operation range of 100ft (unobstructed) for increased flexibility, the AC-W will trigger the attached machines from almost anywhere.

Product Overview

AC Power This product requires a fixed voltage of either 120V/60Hz or 230V/50Hz.

Operation To use your AC-W, follow the steps below:

1. Plug the receiver into the CHAUVET Hurricane 700 (V2) fog machine, or the CHAUVET B250 or B550 Bubble Machine.
Note: This product is ONLY compatible with the above products.
2. Press and hold the transmitter’s button. The attached product will then release either fog (Hurricane 700 V2) or bubbles (B250 / B550). To stop the flow, simply let go of the button.
