

Core 5X1 ILS

Core 5x1 ILS projects smoothly saturated color with COB technology and a large reflector design ideal for bringing the most natural color tones to live setups. Create custom shapes with built-in tool-free connecting hardware. Add a D-Fi™ USB (sold separately) to wirelessly sync Core 5x1 ILS with multiple ILS fixtures of different types. Floor mount for a perfect uplight or attach multiple fixtures together for high-impact pixel-mapped looks, runway chase effects, blinder bursts or color washes.
